Dear Potential Investor:

Cedar Bend Project, LLC is producing the film FREE RANGE. Haunted by his gay brother's suicide, an injured rodeo champion forced into early retirement returns home to coach a group of bullied LGBT high school students. With a release

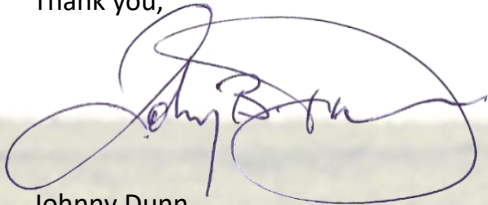

We are seeking funds to support our development and pre-productions costs. We are looking for a commitment of funds. The funds will be obtained when the investor received the PPM for our attorneys. The private placement memorandum (PPM) will include items such as state and federal required investor notices, investment risk factors, professional bios of key producers and production team, cast attachments, a production timeline, a script synopsis, chain of title analysis, a director's statement, description and updated description of the film business, offering information, use of proceeds, accounting information and most importantly, a clear financial map.

In exchange for a financial investment, you will be paid first out of net profits. Depending on the amount you contribute to the film will determine the amount of premium (interest) you receive. All investors will receive a credit in the film. This will be outlined in the PPM. In addition, each investor will receive a scheduled visit on the set during filming, invitations to red carpet events and screenings, and a complimentary DVD of the film and autographed poster.

If you contribute \$5,000 - \$99,000, you will receive all mentioned above, but no premiums. If you contribute \$100,000 or more, then you will receive all above, plus premiums between 5-7%. Again, all details will be outlined in the PPM.

A high-quality script, a strong message against bullying and respecting our LGBTI youth, we are developing a movie that will make a difference. Please be a part of this important film.

Thank you,

Johnny Dunn
